Art Unit: 1711

1. An IDS and a response have been filed resp on June 02, 2003 and August 11, 2003.
2. Still the same claims viz. 1-13 and 41 are being examined.
3. Applicant's election with traverse of group I, claims 1-13 & 41 in paper of August 11, 2003 is acknowledged. The traversal is on the ground(s) that all claims can be searched in one search. This is not found persuasive because contrary to what the applicants assert, the claims being directed to different invention, shall need far more time & effort on the part of examiner for a complete search covering all claims.

The requirement is still deemed proper and is therefore made FINAL.

4. Rejections of claims 1-8 & 10-13 (items 3, 6, & 7 of prior office action) are now withdrawn.
5. Rejection of claims 1,2,3,9, & 10 (item 9 of prior office action) is also withdrawn.
6. Rejection of claims 1-3, 9, 10, and 11 (item 11 of same prior office action) and that of claims 4-8, 12, 13 and 41 (item 12) are now withdrawn.

(It is noted here that claim 41 was inadvertently omitted in the rejection in item 12).

7. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

8. Claim 1-13 & 41 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-13 of U.S. Patent No. 6191196. Although the conflicting claims are not identical, they are not patentably distinct from each other because of following reasons.

Instant claim 1 encompasses an adipic polyester as the first component and therefore is not exactly same of claim 1 of US 6191196. Hydroxy functional polymers are known for a long time and polyester based on a dicarboxylic acid like adipic acid can have few hydroxyl groups on its chain. It is also a polymer. Hence using "an adipic polyester" for "a hydroxy functional polymer" is an obvious variation.

Instant claim 41 differs from claim 4 & US 6191196 in reciting the amount of PHEE as about 1% by wt. This limitation is also an obvious variation.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1711

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
